

### Year 9 Revision List

Use the following points as the basis for your revision.

- Producing Design Specifications for products
- 3D sketching techniques (including rendering) & detailed annotation (materials, dimensions, joining methods, finishes features & functions etc)
- Properties of materials and reasons for selecting to use them
- How manufacturing using different materials can effect the environment.

Remember:

You must bring with you: a pen (blue or black), pencil, ruler, rubber, pencil sharpener and coloured pencils.

Do not spend more on each question than is suggested (you can always come back to it later)

Don't waste time with a question you aren't sure about. Go on to the next one and come back to it later.

The number of marks available for each question is indicated. This should help you to judge how much to write, or how many things to write about.
